- GPA: 3.53

PROJECTS

Healthcare Database Design | *SQL, MySQL Workbench, ERD Modeling, LucidChart* June 2026 – July 2026

- Designed a relational database schema and ER diagram with 9 entities and 4 bridge tables, connecting clinical and financial operations
- Assisted with the SQL database implementation in MySQL Workbench and co-presented project outcomes

Religion and Subjective Well-Being | *Stata SE 15.1* December 2025 – March 2026

- Investigated the association between religiosity and subjective well-being, comparing the relative influence of religious beliefs and practices
- Cleaned and recoded flat-file survey data (World Values Survey, Wave 7) in Stata for statistical analysis
- Performed descriptive statistics and multiple linear regression; reported findings in a master's thesis

WORK EXPERIENCE

Texas Tech University Lubbock, Texas
Department of Sociology, Anthropology, and Social Work
Graduate Teaching Assistant September 2024 – May 2026

- Instructed core topics of Sociology of Religion as part of an undergraduate course
- Developed and applied grading rubrics for assignments, ensuring fair, consistent evaluation
- Delivered personalized feedback on student work through written comments and consultations

10MS Limited Dhaka, Bangladesh
Instructor, Content Reviewer, Quiz Creator May 2019 – April 2022

- Produced 114+ asynchronous video tutorials covering high school sociology curriculum
- Developed supplemental educational materials, including presentation slides and quizzes
- Contributed to quality assurance to ensure accuracy and maintain pedagogical standards
